

WASHINGTON: School Vaccine Refusal Legal Document

NEWBORN MEDICAL AND SCHOOL VACCINATION REFUSAL AND PARENTAL RIGHTS ASSERTION

Parent(s): [Insert Full Legal Name(s)]

Child: [Insert Child's Full Legal Name]

Date: [Insert Date]

School/Institution: [Insert Name]

LEGAL FOUNDATION

We, the undersigned parents and legal guardians of [Child's Name], hereby assert our **inalienable, constitutionally protected rights** under the **U.S. Constitution**, the **Washington State Constitution**, applicable **federal statutes**, and binding **international ethical frameworks** to refuse participation in school vaccine mandates and any other medical interventions, including but not limited to the **Hepatitis B vaccine, Vitamin K injection, MMR, DTaP, varicella, polio, and all other school-required vaccinations**.

1. U.S. Constitutional Protections

- **Fourteenth Amendment (Due Process and Parental Rights):** Recognized in **Meyer v. Nebraska, 262 U.S. 390 (1923)** and **Pierce v. Society of Sisters, 268 U.S. 510 (1925)**, affirming the fundamental right of parents to direct their child's medical care.
- **First Amendment (Religious Freedom):** Though Washington limits exemptions, federal constitutional protections remain enforceable under **Wisconsin v. Yoder, 406 U.S. 205 (1972)**.

2. Washington State Statutory and Case Law

- **RCW 28A.210.090:** Allows medical and religious exemptions for school vaccinations, but philosophical exemptions were removed for MMR in 2019.
- **RCW 7.70.050:** Requires informed consent for healthcare decisions.
- **RCW 26.09.184 and Case Law (Troxel v. Granville):** Parents have a fundamental right to make healthcare decisions for their child.

- **Interpretation:** Despite strict school mandates, informed consent statutes uphold parental authority for non-mandated newborn interventions, such as Vitamin K and Hepatitis B.

3. Federal Statutory and Ethical Protections

- **National Childhood Vaccine Injury Act of 1986 (42 U.S.C. § 300aa–1):** Establishes the necessity of informed consent and provides for vaccine injury compensation.
- **42 U.S.C. § 1983 (Civil Rights Violations):** Provides remedies for violations of federally protected rights, including unauthorized medical treatment.
- **42 U.S.C. § 1395cc(f) (Patient Self-Determination Act):** Ensures the right to accept or refuse medical treatment.

4. International Ethical Standards

- **Nuremberg Code (1947):** Prohibits non-consensual medical experimentation.
- **Universal Declaration on Bioethics and Human Rights (UNESCO, 2005):** Article 6 mandates informed, voluntary consent.
- **Declaration of Geneva (World Medical Association):** Requires physicians to respect patient autonomy and dignity.

SCIENTIFIC EVIDENCE SUPPORTING REFUSAL

Robust evidence demonstrates that **high vaccination rates do not guarantee immunity from outbreaks** and can contribute to **viral transmission, mutation, and persistence**:

- **Haber P et al. (2015).** "Mumps outbreaks in vaccinated populations — United States, 2006–2015." *MMWR*, 64(48), 1345–1349.
Outbreaks of mumps occurred in vaccinated populations, illustrating vaccine limitations.
- **Guerra FM et al. (2017).** "The basic reproduction number (R0) of measles: A systematic review." *The Lancet Infectious Diseases*, 17(12), e420–e428.
Measles outbreaks occurred despite high vaccination coverage.
- **Kennedy DA & Read AF (2017).** "Why does drug resistance readily evolve but vaccine resistance does not?" *Proceedings of the Royal Society B*, 284(1851), 20162562.
Mass vaccination exerts evolutionary pressures, potentially fostering viral adaptation.
- **Lewnard JA & Grad YH (2018).** "Vaccine waning and mumps resurgence in the United States." *Science Translational Medicine*, 10(433), eaao5945.
Highlights the role of waning immunity in driving outbreaks among vaccinated groups.
- **Rosen JB et al. (2014).** "Outbreak of measles among persons with prior evidence of immunity, New York City, 2011." *Clinical Infectious Diseases*, 58(9), 1205–1210.
Demonstrates vaccinated individuals initiating and spreading outbreaks.

DEMANDS AND DECLARATIONS

We hereby:

- **Formally refuse all mandated vaccines for [Child's Name]**, under Washington law, U.S. Constitution, federal statutes, and international ethical principles.
- **Assert parental rights to informed consent and medical decision-making** under RCW 7.70.050 and RCW 26.09.184.
- **Demand formal documentation of this refusal in school records** to prevent unauthorized medical actions.
- **Declare any attempt to administer vaccines or medical interventions without explicit parental consent as unlawful medical battery and a civil rights violation**, enforceable under federal and state law.
